

A wide variety ...

Push-in Connect

with

G Thread

Equal heights of fittings with G thread helps the machine design with less tolerance.

PISCO offers a variety of fittings with G threads including Mini-type

▶ Different type of thread

- PISCO provides a variety of threads not only G thread but also NPT, UNF, R and Metric thread.

Fluid	Air, Water (Conditional※)
Maximum service pressure	145psi (1.0MPa)
Vacuum pressure	-29.5 in.Hg (-100kPa)
Service temperature range	32 ~ 140 °F (0 ~ 60°C) (no freezing)

※. Mini type of fitting cannot be used with water.

⚠ Warning

- ※. Make sure to follow the instructions below when the fluid medium is water.
 1. Surge pressure must be controlled lower than max. operating pressure.
 2. Tap water can be used. Consult with PISCO for using other kind of water.
 3. Be sure to place Insert Ring into the tube edge when using water as a fluid medium.

■ Construction (G thread Elbow)

Model designation (example)

Push-in fitting

①. Type

Code	Type	Code	Type	Code	Type	Code	Type
C	Straight	OC	Hex Key Straight	L	Elbow	LL	Long Elbow
H	Banjo	HF	Link-up Banjo	OL	Hex Key Banjo	B	Tee
D	Branch Tee	X	Branch Y	AX	Twin Neck Elbow	A	Twin Neck Banjo

③. Thread size

Code	G1
Size	G1/8

※ Clean-room package or Clean-wash package: POM gasket

△ Detailed Safety Instructions

Before using PISCO products, be sure to read "Safety Instructions" and "Common Safety Instructions for Products Listed in This Catalog" and "Common Safety Instructions for Fittings".

Warning

1. When the fluid medium is water, do not use Tube Fitting Standard Series unless the operating environment meets all the described specifications in the catalog. Otherwise, it may cause damage to the products, the escape of tubes and a fluid leakage.

Caution

1. To adjust the direction of the elbow fitting after fixing PML (Bulkhead Union Elbow) type, turn it in the clockwise (right) direction.
2. Attach a rubber washer to the aluminum nut side when installing PML (Bulkhead Union Elbow) type. The bulkhead parts may be loosened or the rubber washer may deform if attaching it to the hexagonal side.

PC Straight

PC16-G3

Unit : mm

Model	Tubing O.D. øD	G	A	B	L	Tube end C	Hex.	Orifice dia. (ømm)	Weight (g)

PC16-G4		G1/2A	6.8	35.3			28.5			24	51

※ Orifice dia. is figured out by converting the narrowest path to the diameter.

※ "L" represents the length including the thickness of the gasket before installation. Actual dimension comes in 0.4mm shorter after installation since it is crushed by the thread being tightened.

POC Hex Key Straight

POC8-G3,
