Dear Customer,

Model designation change of the Fall Prevention Valve

We appreciate your business with PISCO.

This is to inform you that we are going to carry out the following model designation changes on the Fall Prevention Valve.

The new model codes are effective from August 1, 2020, and we will accept PO with new model code from August 1, 2020. Please be noted that some of the currently existing stocks in our warehouse will be delivered with a label of the old model code without change.

There are no changes in external dimensions or specifications other than the model designation.

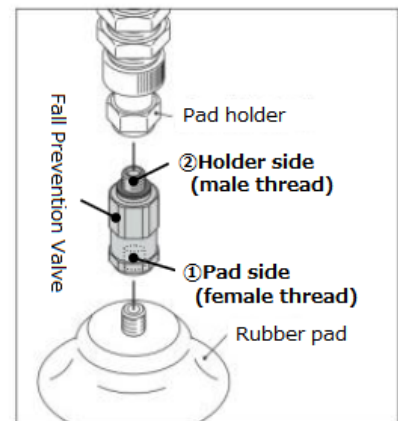

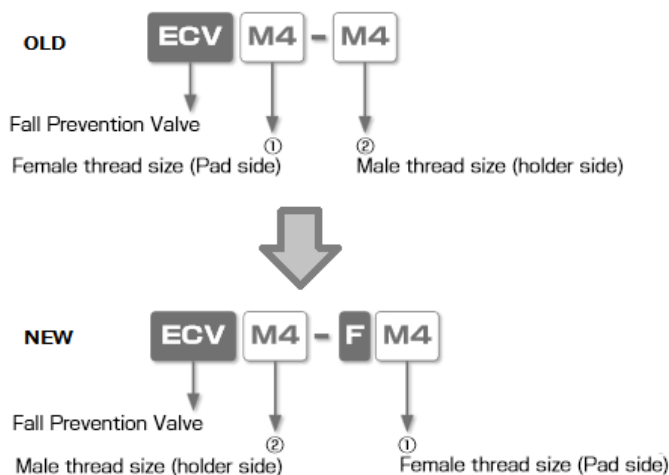

We apologize for the short notice and inconveniences being caused by this change in advance and ask for your kind understanding and cooperation.

Sincerely Yours,

Change Details

1. Model designation change:

1. Change the order of thread size description
2. Adding the letter "F" to the female thread
