 Date: March 2023
 Dear All,

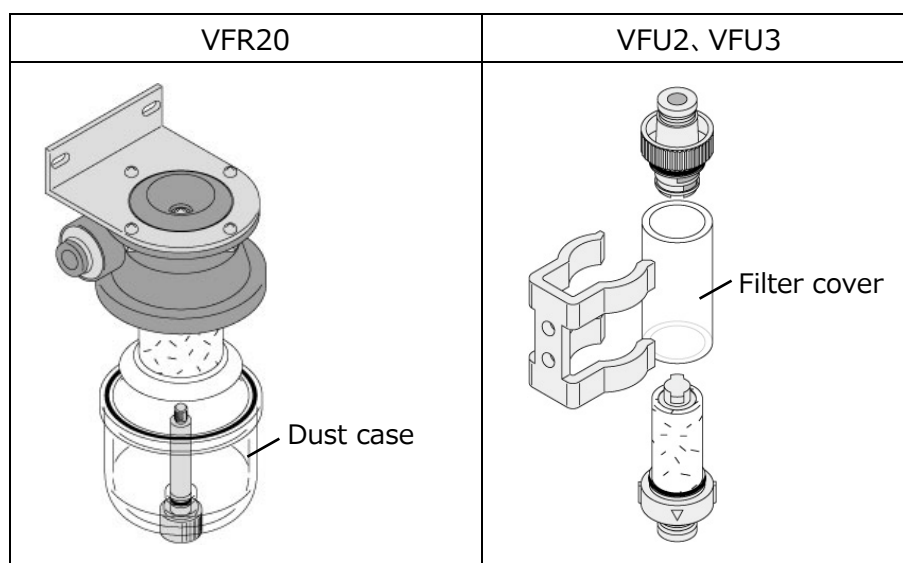

Information on material change for vacuum filter dust case (filter cover)

We would like to express our sincere gratitude for your continued patronage.

We would like to inform you that the material of the dust case (filter cover) used in our vacuum filters VFR and VFU will be changed in order to ensure the stability of the resin material.

We would like to thank you for your understanding.

- Subject model Vacuum Filter VFR type Model code : VFR20-□
 Example) VFR20-10-10、VFR20-12
 VFU2 type Model code : VFU2-□ Example) VFU2-66P、VFU2-44P-NH
 VFU3 type Model code : VFU3-□ Example) VFU3-88P、VFU3-66P-NH

- Changes Material change of dust case (filter cover)
 Current: PCTG [Polycyclohexylene dimethylene terephthalate/glycol modified]
After change: Si-PC [siloxane copolymerized polycarbonate]
 *There is no change in price, appearance, or specifications.
 *Chemical resistance comparison data is available for reference.

- Effective date Scheduled to be changed sequentially from around July 2023

*Positive and negative pressure filter, vacuum generator complex type/External vacuum controller (excluding VN/VNP/VIP)

Regarding the solenoid valve (SVA21), we plan to make the same changes sequentially from around October 2023.
